

Subject: Proposal for App Development Project

Dear Mr. Maaz Mustafa,

We are excited to present our proposal for developing your app, fully tailored to meet all the specifications and requirements outlined in the documents and presentations you provided. Our team is committed to delivering a high-quality product within a swift timeframe of 15 days.

The total budget for this project is 100,000 PKR. This comprehensive package includes the complete development of the app, deployment, and a thorough knowledge transfer process. Our knowledge transfer service ensures that your team will be fully equipped to manage, maintain, and further develop the app post-deployment. We believe this holistic approach will provide you with the best value and long-term success.

Alternatively, if you prefer to handle the deployment and do not require a knowledge transfer, we offer the app development alone at a reduced cost of 70,000 PKR. This option still guarantees a fully functional and polished app, delivered on time, but without the additional services of deployment and training.

We are confident in our ability to deliver a solution that not only meets but exceeds your expectations. We look forward to the opportunity to work with you and bring your vision to life.

Best regards,

Askari Abbas
